

# DIUCAPS CAPSULES

L-Phenylalanine

## Natural Alternative to Phentermine Pharmaceutical Grade L-Phenylalanine

- ✓ 100% All Natural, Safe and Effective
- ✓ Non Addicting
- ✓ Non-Stimulant - Non Controlled
- ✓ Can Be Used With Phentermine
- ✓ Does Not Deplete Norepinephrine Levels
- ✓ Clinically Proven

L-Phenylalanine is an essential amino acid that can inhibit appetite by increasing the brain's production of the neurotransmitter NE (norepinephrine). Phenylalanine causes the brain to release the hormone CCK (cholecystokinin) which has been shown to inhibit eating. Unlike appetite suppressant drugs utilizing controlled stimulants to reduce appetite, L-Phenylalanine naturally and effectively promotes the same desired response without the stimulative and other undesirable behavioral side effects. \*

### Each capsule contains:

L-Phenylalanine	300 mg
Vitamin C	100 mg
Vitamin B6	25 mg
Pantothenic Acid (B5)	50 mcg

Pharmaceutical Grade and Therapeutically Dosed

**L-Phenylalanine:** Turns into a neurotransmitter in the brain. These neurotransmitters provide feelings of joy, ambition and alertness, and has been shown to inhibit appetite.\*

**Vitamin C and B6:** Are catalysts required for the conversion of phenylalanine to NE by the brain, it maintains the protein collagen and gives strength to blood vessels. It's also an antioxidant.\*

**Vitamin B6 Pyridoxine:** Contributes to the formula as a natural diuretic and mood stabilizer. It also helps to metabolize fats and carbohydrates. B6 helps maintain the balance of sodium and potassium which regulates body fluids.\*

**Vitamin B5 Pantothenic Acid:** The essential part of coenzyme A, which is required for cellular metabolism. It releases energy from carbohydrates, fats and proteins. As a coenzyme, it helps in the utilization of other vitamins.\*

## Biological effects of DIUCAPS™

- Inhibit Appetite\*
- Regulate Mood\*
- Curb Cravings and Head Hunger\*
- Control Binge and Night Time Eating\*
- Enhance Mental Focus\*
- Boosts body's natural cortisone\*

# Super Energy™

## All Natural Energy Booster!

Low energy/fatigue can cause low compliance which leads to low efficacy. Often these patients are likely to reach for a snack such as a candy bar to gain energy which results in energy spurts followed by crashes and further weight gain as this constant snacking on gluten-rich foods can compromise one's metabolism.

Super Energy is a unique combination of nutrients that work synergistically to help the body naturally produce energy. These key ingredients are unlikely to be consumed in sufficient levels in one's diet, emphasizing the importance of supplementation.

**Guarana Extract:** Guarana contains a compound known as guaranine, which is similar to caffeine in its chemical structure. Unlike the caffeine found in coffee, guaranine is released slowly resulting in an energy boost that can last as long as 6 hours without a sudden rush or crash.

**Korean Ginseng:** Rejuvenates and restores vigor, soothes the intestinal tract and helps to purify the blood. Ginseng has been used for centuries as a component of traditional Chinese medicine for its natural ability to increase energy, stamina, and circulation of the blood.

### Each Tablet Contains:

Guarana Extract	500mg
Korean Ginseng	100mg
Bee Pollen	100mg
B12 (Cobalamin)	100mcg
Potassium Gluconate	500mg
Folic Acid	50mcg
Vitamin C	50mg
Niacin	20mg

Pharmaceutical Grade and Therapeutically Dosed

**Bee Pollen:** Bee Pollen is considered one of nature's most completely nourishing foods. It contains nearly all nutrients required by humans. The comprehensive nutrient profile makes Bee Pollen a great source of natural energy. Bee Pollen also contains Lecithin, which helps to eliminate body fat and stimulate the metabolism. Lecithin is a source of choline, which is essential for normal brain function including memory and muscle control.

**Vitamin B12:** This essential vitamin is involved in the metabolism of every cell in the body, including metabolizing fats, carbohydrates, and protein to increase energy levels.

**Potassium Gluconate:** Potassium is required for the function of all living cells. Low potassium levels can lead to fatigue, muscle weakness, and cramps. Potassium is also beneficial for balancing fluid and electrolyte levels.

# PROBESE™

Quick Fill Bulking Fiber

## Probese Quick Fill

*Creates Fullness Before and In-Between Meals*

- ✓ Expands Up To Seven Times in the Stomach
- ✓ 100% All Natural Ingredients
- ✓ Clinically Proven

Probese is a weight loss aid that contains vitamins, minerals, and a bulking agent to create a feeling of fullness and to help curb the appetite. Chromium, an essential trace mineral, has been added to this combination to aid in the metabolism of sugar and carbohydrates.

Probese™ may work in two ways: as an appetite controller and as a fat and sugar binder. Before meals, taken with an 8oz glass of water, Probese™, (carboxymethylcellulose) can swell seven times its dry volume in the stomach. This promotes a feeling of fullness and keeps one from over-eating. During digestion, the Probese™ bulking fiber is thought to surround sugar and fat molecules and thus minimize their absorption by the body.

### Each 3 capsule contains:

<b>Carboxymethylcellulose</b>	<b>500 mg</b>
Vitamin A	5000 IU
Vitamin D	400 IU
Chromium	300 mcg
Calcium	87 mg
Vitamin C	60 mg
Phosphorus	45 mg
Niacinamide	20 mg
Riboflavin	1.2 mg
Thiamine	1 mg

**In a base of trace minerals**

**Pharmaceutical Grade and Therapeutically Dosed**

## Probese Expands Up To Seven Times (7X) in the Stomach Providing a Quicker Feeling of Fullness

### Biological effects Probese w/CMC™

Probese™ may assist in:

- Providing a feeling of fullness
- Controlling appetite
- Reducing cravings for sugar and carbohydrates
- Stimulating the production of fat burning hormones
- Increasing the rate of metabolism and helping to burn calories more rapidly

*Elegant Image Medical Weight Loss*
